EDUCATION

Bachelor Of Software Engineering

Birjand University , Birjand, Iran **2012 - 2016**

PROFILE

Collaborative, organized, and eager-to-learn Android developer with **6 years** of experience in developing high-quality and robust applications. developed +4 applications with Kotlin and Java using the best practices and the latest tools and technologies in Agile teams. Eager to stay up-to-date with the latest industry trends and passionate about knowledge-sharing sessions.

EXPERIENCE

SENIOR ANDROID DEVELOPER , AyanCo.   05,2023 - Present

*Ayan, a leading software company in Iran, boasts **+5M** users and a diverse portfolio of successful mobile applications.*

- Applied SOLID principles to refactor the core structure (main SDK) of all company apps, resulting in a remarkable 70% reduction in project timelines.
- Worked closely with the Backend and IOS teams to design appropriate Rest APIs.
- Mentored less experienced developers, resulting in a 20% improvement in their performance and project outcomes.

SENIOR ANDROID DEVELOPER, Abrbar   03,2022 - 03,2023 , 1yr

Abrbar is a comprehensive platform for cargo transportation that speeds up the transportation process for truck drivers.

- Implemented Jetpack Compose to create a modern and visually appealing UI.
- Collaborated with the Android team to Refactor the code change structure from MVP to MVVM and change Java code to Kotlin.
- Collaborated with the team in Agile methodology.
- Implemented test-driven development framework and executed comprehensive UI and unit tests, resulting in remarkable test coverage and a significant reduction in QA time.

ANDROID DEVELOPER,   Danak   09,2020 - 03,2022, 1yr,7mos

Danak is an educational application for elementary school students that teaches in the form of games and entertainment.

- Added AppMetrika crash service to the project this leads to 91% free-crash users' app.
- Collaborated with the Android team to develop and maintain features for the Danak app.
- Used Repository Pattern design for readability and testability code.
- Worked closely with QA colleagues.
- Made Unit tests that lead to getting actionable feedback earlier in the development process.

ANDROID DEVELOPER,   Abrbar   09,2018 - 09,2020, 2yr

- Maintained Java code with Android best practices, including bug fixing, performance enhancement, architecture, design, and code quality. As a result, 90% of users did not face any crashes.
- Developed the whole existing code base with MVP architecture from scratch.
- Collaborated with the product design team in order to develop a better user experience.
